

“

I have worked with Neal since 2017 for two transactions, the first purchasing a new building and the second the sale of the business and building, Neal was able to help me find, negotiate and close on a new building for my existing preschool in 2017.

His knowledge and encouragement helped me find a perfect location and a building with 1.6 acres. He was hands on from the day we visited the property, through the renovation and helping navigate permits to open.

Due to his professionalism and passion for the child care business I knew Neal would be the best person to handle the sale of business and property in 2022. Neal knew the history & culture of the school and my passion for the child care center and found a great fit with a buyer. Neal does a great job vetting the buyers and truly caring that both parties are satisfied with the process.

Once again, his knowledge, eased my concerns and he guided me through a very detailed and important business decision.

Once again, Thanks!!
